

CECILIA STAMP

Printable Ring Size Guide

This printable guide can be used with an existing ring you own to determine your ring size. Please note that nothing is as accurate as being sized in person by a jeweller, but it's a useful tool for reference to get an approximate size.

1. Print this A4 page with scaling set to 100%. To check your print scale is correct, measure the line below. It should be exactly 5cm in length.
2. Place your ring over the circles below and align the inside edges of the ring to the circle nearest in size. The measurements shown under each one refer to the inside diameter of that size.
3. The circle/letter that fits best inside your ring is your size. Make sure you can see the full thickness of the black line within your ring when it sits on top of the circle. If it falls between two sizes you may be a half size inbetween, let me know and I can advise based on the style of ring you wish to go for.
